Note: Act 143, Session Laws of Hawaii 2017 (Act 143), is effective for taxable years beginning January 1, 2019 and applies to any production whose tax year begins after December 31, 2018. The Hawaii Department of Taxation has issued Tax Announcement 2019-15 that summarizes newly adopted Hawaii Administrative Rules (HAR) relating to §235-17 HRS, the motion picture, digital media, and film production income tax credit as amended by Act 143 and Act 275 (film tax credit). Please review these newly adopted HAR carefully as they supercede all other instructions for the film tax credit program including Tax Information Releases issued earlier in 2019. The \$35M cap that is referred to in TIR 2019-01 has been increased to \$50M per Senate Bill 33.

Appendix A: **Overview of 20-25% Motion Picture, Digital Media, and Film Production Income Tax Credit**

The Motion Picture, Digital Media, and Film Production Income Tax Credit is a refundable income tax credit based on a production company's Hawaii expenditures while producing a qualified film, television, commercial, or digital media project.

What is the tax credit?

- The credit is calculated as a percentage of "qualified production costs" incurred in Hawaii
- The credit shall be claimed against the Hawaii taxpayer's net income tax liability for the taxable year in which the credit is properly claimed
- If the credit exceeds net income tax liability, the excess of credits over liability shall be refunded
- The credit was initially established by Act 88 in 2006, and was amended by Act 89 in 2013, and was further amended by Act 143 in 2017 and Act 275 in 2019 applicable to taxable years beginning January 1, 2019.
- The credit is administered by the Hawaii Film Office and the Hawaii Department of Taxation

How much is the tax credit?

- 20% of total "qualified production costs" incurred while filming on Oahu
- 25% of total "qualified production costs" incurred while filming on a neighbor island
- There is a \$15 million credit cap per "qualified production"

What changes were made to the law as part of Act 143?

- An overall annual spending ceiling of \$50 million was imposed with the ability to claim from the subsequent year once the \$50 million aggregate cap has been reached.
- All productions claiming the credit regardless of size must secure a third-party review by a qualified CPA firm at the production's expense. The fees for the third-party review are considered a qualified production cost so long as the cost of the review is subject to Hawaii state tax. Qualified CPAs must be licensed to practice in the state of Hawaii.
- Before claiming the costs of products or services imported from outside the state as qualified production costs, productions must affirm by sworn statement that they were unsuccessful at procuring those items locally. Productions must also provide proof that Hawaii use tax was paid on the costs of products or services imported from outside Hawaii in order to claim those costs as qualified production costs.

Who is eligible for the tax credit?

- A company that produces a "qualified production" that spends a minimum of \$200,000 in "qualified production costs" in Hawaii, and can be categorized as one of the following:
 - Feature film (narrative, documentary, experimental, student)
 - Short film (narrative, documentary, experimental, student)
 - Television movie
 - Commercial (an advertising message filmed within 6 consecutive weeks in Hawaii for dissemination via television broadcast or theatrical distribution)
 - Music video
 - Interactive game
 - Television series pilot
 - Single season (up to 22 episodes) of a television series regularly filmed in the State (if the number of episodes per single season exceeds 22, additional episodes for the same season shall constitute a separate "qualified production")
 - Television special
 - Single television episode that is not part of a TV series regularly filmed or based in the State
 - National magazine show
 - National talk show
 - Productions (other than advertising) with Internet-only distribution.

Which "qualified production costs" are used in calculating the credit amount?

- "Qualified production costs" must meet all of the following requirements:
 - Costs that are incurred in Hawaii
 - Costs that are subject to Hawaii's general excise tax or income tax
 - Costs that belong to the following general categories (not an exhaustive list):
 - (1) Costs incurred during preproduction, such as location scouting and related services;
 - (2) Costs of set construction and operations, purchases or rentals of wardrobe, props, accessories, food, office supplies, transportation, equipment, and related services;
 - (3) Wages or salaries of cast, crew, and musicians;
 - (4) Costs of photography, sound synchronization, lighting, and related services;
 - (5) Costs of editing, visual effects, music, other post-production, and related services;
 - (6) Rentals and fees for use of local facilities and locations;
 - (7) Rentals of vehicles and lodging for cast and crew;
 - (8) Airfare for flights to or from Hawaii, and interisland flights;
 - (9) Insurance and bonding;
 - (10) Shipping of equipment and supplies to or from Hawaii, and interisland shipments; or
 - (11) Fees for state and county facilities and locations.
- For more detailed information on specific "qualified production costs," please see **Hawaii Administrative Rules relating to the Motion Picture, Digital Media, and Film Production Income Tax Credit**.

Are there additional requirements for claiming the tax credit?

- During production, a "qualified production" must:
 - Demonstrate reasonable efforts to hire local talent and crew. Such efforts must be reported on the "Hawaii Production Report (HPR)".
 - Provide every nonresident employee, contractor, vendor, loan-out company, or other agent providing goods or performing services in the State with a tax advisory informing such persons of State tax obligations and obtain acknowledgement that the tax advisory was received.
 - Make financial or in-kind contributions or educational or workforce development efforts, in partnership with related local industry labor organizations, educational institutions, or both, toward the furtherance of the local film and television and digital media industries. Report the contributions on the "(HPR)." **Note:** The level of this contribution has increased and is non-refundable even if the production ultimately does not qualify to claim the tax credit.
 - If claiming costs of imported products or services as qualified production costs, complete a Sworn Statement certifying that reasonable efforts were made to procure the products and services locally before procuring comparable products and services from outside the state of Hawaii. Pay Hawaii's use tax on the imported products and services and include proof of payment with the Sworn Statement.
 - Provide a screen credit or the like to the State of Hawaii, if applicable. Provide proof via screen grab.
 - Provide a DVD copy of the production and an electronic press kit (if one exists) to the Hawaii Film Office.

Who is NOT eligible for the tax credit?

- Productions that spend less than \$200,000 in Hawaii
- Productions that can be categorized as one of the following (not an exhaustive list):
 - Daily news
 - Public affairs programs
 - Non-national magazine or talk shows
 - Televised sporting events or activities
 - Productions that solicit funds
 - Productions produced primarily for industrial, corporate, institutional, or other private purposes
 - Pornography

How is the credit claimed?

- At least seven business days prior to the first Hawaii shoot date, a "qualified production" must register with the Hawaii Film Office by submitting a "Production Registration Form (PRF)."
- Filing entities for all "qualified productions," regardless of tax year, must submit a "Hawaii Production Report (HPR)," within 90 days after the close of the calendar year that includes: a detailed Hawaii expenditure report, third-party CPA review, vendor list, loan-out lists, final crew list, payroll log, petty cash breakdown with back up, proof of end-title screen credit and any other required deliverables to the Hawaii Film Office. If, based on the information provided, the applicant qualifies for the credit, the Film Office will issue a credit certification letter to the applicant.

Note: The Department of Taxation is the ultimate arbiter of tax credit disbursements, and credit eligibility is ultimately subject to the Department of Taxation's review and, in some cases, audit.

- The applicant must then submit the following forms to the Department of Taxation on or before the prescribed deadline for the filing of your Hawaii income taxes:

- (1) Hawaii State Income Tax Return
- (2) Form N-340, Motion Picture, Digital Media, and Film Production Income Tax Credit,
- (3) Schedule CR, Schedule of Tax Credits, and
- (4) Copy of credit certification letter from Hawaii Film Office.

Deadline: All claims, including any amended claims, must be filed on or before the end of the 12th month following the close of the taxable year for which the tax credit may be claimed. Failure to comply with the 12-month filing requirement constitutes waiver of the right to claim the credit.

Tax forms can be found at: <http://tax.hawaii.gov/forms/>

How will I receive my credit?

- The credit shall be claimed against the net income tax liability for the taxable year. "Net income tax liability" means net income tax liability reduced by all other credits allowed under Hawaii income tax law.
- If the credit exceeds your income tax liability, the excess of credits over liability shall be refunded to you, provided that no refunds or payment on account of the credits shall be made for amounts less than \$1.

(It usually takes the Department of Taxation approximately 2-3 months to process the returns and issue the credit.)
